EXAMINER INTERVIEW SUMMARY

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Dear Sir:

Applicant's Representative, Gregory Sebald, spoke with Examiner Kassa via telephone on September 18, 2008.

In the interview, the portion of the claims relating to a computer program imbedded within the document was discussed. Also discussed was the cited Marshall reference. Applicant's Representative and the Examiner discussed the rejections and how the language was interpreted and application of the Marshall reference. The Examiner indicated that the claims as presently pending are obvious in view of the Marshall reference. However, it was indicated that there are further differences between the present invention and Marshall and its combination with the other cited prior art and that the claims could be amended to overcome the currently cited prior art, but that further searching would be required depending upon the limitations added. Applicant's Representative thanks Examiner Kassa for the cooperation and courtesy extended during the interview.

If a further interview may be helpful in this matter, the Examiner is invited to contact Applicant's representative at 612.336.4728.
